25X1

Comment: It is believed that due to a typing error made before the report reached this office, the last few numbers in the key are not correct. Apparently an item was omitted at some point. By comparison with other maps available in this office, we have been able to determine that item 41 is correct and that therefore the omission probably took place after that. It is apparent, however, that the airfield should be numbered 62, and not 61.
